

LEARNING PATH FOR Lil Champs

Course Break-up (3 modules)

LEARNER

₹ 7,199 only

9 Sessions
800/Session

What will your child learn? Introduction to Basics

Concepts like algorithms, sequencing, debugging, loops, conditionals and events covered

What will your child do?

Students will write code to create puzzles, shapes & Animations.

How will it benefit your child?

Increases Logical-Thinking Skills by 60%

DEVELOPER

₹ 14,249 only

19 Sessions
750/Session

What will your child learn? (Basic course in-built)

BASIC (Concepts like algorithms, sequencing, debugging, loops, conditionals and events covered)
+
Concepts like loops (repeat, nested etc.), functions, events and variables

What will your child do?

BASIC+ Write code to solve complex puzzles, geometric shapes and create a simple game.

How will it benefit your child?

Increases Logical-Thinking Skills by 60% and enhances problem-solving skills.

ENTREPRENEUR

₹ 27,999 only

40 Sessions
700/Session

What will your child learn? (Basic + Intermediate in-built)

BASIC (Concepts like algorithms, sequencing, debugging, loops, conditionals and events covered)
+
Concepts like loops (repeat, nested etc.), functions, events and variables
+
Introduction to Coordinate System (x-axis & y-axis), Sprites and UI/UX design.

What will your child do?

INTERMEDIATE + Write code to create scene, animations and build an interactive app

How will it benefit your child?

Increases Logical-Thinking Skills by 60%, enhances Problem-Solving skills, boosts Creativity and Computational Thinking skills

Most Popular

Additional Benefits

BASIC

1 detailed assessment report

3 additional after-class projects

INTERMEDIATE

2 detailed assessment reports

5 additional after-class projects

App on Applab

Certificate of completion

ADVANCED

3 detailed assessment reports

10 additional after-class projects

App on Applab

Certificate of completion

2 extra sessions for revision & projects

Life-time access to E-learning resources
